PT Manage™

PT Manage is the leading companion tool for managing all Phenova Proficiency Testing Studies, from enrolling to reviewing and reporting data.

Shaped by Quality Assurance Managers, PT Manage is exclusively designed to exceed average reporting tools by bridging High-Throughput Data Upload, Customized Reporting and Laboratory Trending/Monitoring (DOC and Exception Reports).

Its flexibility and accessibility gives all QA Managers and their labs the advantage of managing their studies from anywhere in the world, regardless if they don't have the convenience of an IT supported LIMS system.

Compatible with all Phenova Studies and Standards

View our PT studies at http://www.phenova.com/Product/PTOverview

Streamlined Data Upload

Depending on your lab's preference/setup, three simple solutions are available to upload your study data:

|	
LIMS Generated EDD	Automatically upload the EDD file from your local machine into PT Manage™ and use the data to map out the information.
Customized Data File	Upload your data using a downloadable CSV. template that's pre-populated with information relevant to your enrolled PT studies – Simply download the template, update with your results, and upload to PT Manage.
Manual Entry	Manually enter your data into PT Manage with the added flexibility of revising your data while the study is still open.

Demonstration of Capability Feature

An analyst's demonstration of capability (DOC) typically absorbs extensive time for quality assurance managers to create and review. The DOC feature, exclusive to PT Manage™ , allows you to customize an automated report and quickly collect all the information for each analyst including:

- Method Code
- Method Description
- Prep Method
- Assigned Value
- Acceptance Levels
- And More

Now without the hassle of manual entry, you'll be able to frequently monitor your analyst's capability for performing regular analyses with acceptable precision, accuracy, and sensitivity.

- *Save time from manually generating DOC reports*
- *Generate reports from blind QC Standards or a PT Study*
- *Include an optional standard cover letter*

DMR-QA Reporting

PT Manage™ simplifies your DMR-QA study with automated reporting. Instantly generate reports for your DMR-QA Coordinator or NPDES permittee and electronically deliver their reports via email through PT-Manage's reporting application.

Just save their emails in PT Manage and you can just click and send, year after year with each new DMR-QA Study.

No need for NPDES Permittees or DMR-QA Coordinators to access PT Manage.

! *Automatic delivery of reports from PT Manage via email.*

Custom Data Analysis

With all of your data in PT Manage™, customizing your data analysis has endless possibilities when using the Custom Report Generator. Populate information from several sets of criteria to get the exact report you need.

- Get comprehensive access to data to help shape your laboratory's internal quality program
- Monitor and track historical PT performances
- Generate Automatic Exception Reports
- Save your queries to use again & again
- Gain Full Network Visibility – identify where across your network has the best performance

Easily Customize your Data Report
